The money market was stringent throughout the say, the lowest rate being 7 per cent currency, which was exceptional, and paid only by some fawored borrowers or upon pledge of government col-laterals. The activity increased as the afternoon advanced until one-lourth of 1 per cent per dayequivalent to 90 per cent per annum—was paid at about a quarter to three o'clock. At three o'clock the rate was 3-16 per cent, and at twenty minutes past three, when the dealings terminated, the clos-ing rate was % per cent. Foreign exchange was lower and nominal, in consequence of the derangement of both the money and the gold loan narket. The following were the closing nominal guotations, from which deductions of % a % per cent were made in the case of sterling for cash gold in diate exchange:-Sterling, sixty days, commercial, 108% a 107%; do., good to prime bankers', 107% a 107%; do., short sight, 108% a 108%; Paris, sixty days, 5.42% a 5.36%; do., short sight, 5.32% a 5.31%; Prussian thalers, 70% a 71%; Antwerp, 5.37% a 5.30; Switzerland, 5.36% a 5.30; Hamburg, 35 a 5.30; Switzerland, 5.40% a 5.40%; Farnkerdam, 35 a 5.30; Switzerland, 5.40%; Pruskian thalers, 70% a 71%; Antwerp, 5.37% 10%; Amsterdam, 30% a 40; Frankfort, 40% a 40%; Bremen, 93% a 94%.

GOLD STRONG-114 A 114%. The gold clique put the screws upon the short in-terest in the gold market, from which they witharew and locked up at least three millions, one of their checks for over \$2,800,000 having into the Clearing House. The designs of the clique business usually for Daniel Drew, their plans en-abling them by this means to ensuare a large "short" interest, the broker referred to having become proverbial for

"MISSING THE MARKET," selling it when it was a purchase and buying when it was a sale. At least the outsiders have taken this view of him, and by "coppering" him -- to quote their own curious expression, whatever may be its origin, for it is a comparatively recent term in Wall street parlance—have hit the market four times out of five. This strategy victimized the outsiders for once and put them at the mercy of the clique, who advanced the borrowing rate for cash gold to of gold rising at the same time to 114%. The inquiry 'or cash gold for use in to-morrow's business was almost as much of

THE BOSTON, BARTFORD AND ERIE BONUS.

The Providence (R. I.) Press of last Saturday

The Providence (R. I.) Press of last Saturday contains the following:—

There is a sharp struggle to possess the body of the bankrupt corporation known as the Boston, Hartford and Eric Railroad. The parties are the Eric Railroad on the one hand, and Commodore Vanderbit on the other. Eric desires the road, as by it a connection will be made which will open up New England, and throw into its hands a heavy through tradic. Vanderbilt desires the control to hinder this connection and preserve to himself through the New York Central the New England trade, which now takes the line of the Boston and Albany Road. He wishes to retain this monopoly

Patact, for 17 he obtains control of the Boston, Hartford and Eric no connection as contemplated will deepermitted. All New England has an interest, a most substantial one. Now traffic is at the beck and will of Vanderbilt, for he makes everything tributary to the New York Central. Connected with Erie, the hand of Vanderbilt would be taken off New England and there would be a competing railway to the West. This would tend to equalize freight and destroy the existing monopoly. It would be policy for New England to make up a purse and checkmate Vanderbilt, if the thing could be accomplished in no other way. We have arrived at a point when it has become necessary to assert the prerogative of the people as against these great railway monopolies. They are utterly unscrupulous, as has been demonstrated repeatedly. They invade the halls of legislation, arraying one corporation against another to keep monopoly within bounds of control. Both Erie and the Central are monopolies of the worst character; both should be made to compete for the New Edgland business.

SOUTHERN SECURITIES DULL The Southern State bonds were dull and prices irregular. GOVERNMENTS FIRM.
Outside the currency issues, which were lower, government bonds were firm at their recent advance, the farther rise in gold overcoming the adverse influence of the stringency in money and the slight reaction from the advance of yesterday in the London market. The buoyancy of the foreign market is explained by a cable rumor stating that a chief result of the recent meeting of the three European Emperors was an under-standing in reference to the French question by which Germany is to immediately with-draw from France the last soldier of the army of occupation. The following were the closing quotations:—United States currency sixes, 111% a 111%; do., 1881, registered, 114 a 114%; do., do., do., coupon, 115% a 116; do. five-twenties, registered, May and November, ex int., 111 a 111½; do. do., 1802, coupon, do., 114½ a 114½; do. do., 1864, do., do., 114½ a 114½; do. do., 1865, do., do., 115 a 116½; do. do., 1867's, registered, January and July, 113½ a 113½; do. do., 1865, coupon, do., 113½ a 118%; do. do., 1867, do., do., 113% a 114; do. do., 1868, do., do., 113% a 114%; do, ten-forties, registered, 107% a 108; do. do., coupon. 107% a 108; do. fives, 1881, registered, 110% a 111; do. do., do. coupon, 110% a 111.

Proces Dull and Firm.

The stock market was dull and generally firm, in face of the scarcity of money—an inconsistency which induced a widespread belief that the clique were secretly covering their contracts, or that some of the members of the pool were buying outside of the combination. The only activity of im-portance was in Pacific Mail and Western Union Telegraph, and it is estimated that nearly 100,000 shares of the former and nearly 50,000 shares of the latter changed hands during the day. Pacific Mail was run up to 78 by the "bull" clique operating in it at an advance of over four per cent for the day. Subsequently it relapsed to 70%, advanced to 77% and closed at 76%. Western Union Telegraph advanced to 70% and closed at 70%. The annual meeting of the company will be held on Wednes-day, October 9, and the directors are now preparing the annual report. It is rumored that they will recommend the payment of a cash dividend of 4 per cent and the award of 20 per cent in stock to the present stockholders, the latter division representing bonds bought with the funds of the com-

Tesaray, Oct. 1-6 P. M.

There was but little enange in the states of commercial matters to-day, the stringency of the money market and the difficulty of negotiating mercantile paper except at ruinously high rates being still among the noteworthy features and the most conspicuous hindraneer to an active prosecution of trade. But, notwithstanding these draw backs, a good business was done in most departments and at satisfactorily remunerative prices. The scarcity of at satisfactorily remunerative prices. The scarcity of tenninge was more seriously feit to-day than ever and rates of freight were again higher—the Liverpeol steamers receiving 12½d, per standard bushel for grain. Notwithstanding the advance in freights wheat was in fair request and higher prices were realized; but the effect was more unfavorable on the corn market, which closed less active and at a decline of about ic. per bushel as compared with the prices current on "Change vesterday. Sales for forward delivery of the corn for the control of the corn of the cor current on 'Change yesterday. Sales for forward deliv-ery were made at full prices. Onts were heavy, and in some cases a trifle lower under a pressure to realize. Provisions were still difficult of sale, though perk was placed in a small way at a slight advance. Lard was lower and hard of sale. The movement in cotten was fair both for export and consumption, with prices un-changed. Greeries remained quiet, yet prices were very firm.
